

RUMBLE

GENERAL OVERVIEW:

This is an Index style class designed to show case the GM LS/LLT Engine, for participants wishing to run slower than 11.00 second ETs, with **no electronics and no Trans-brake permitted. Any make/body vehicle is permitted.** Must be powered by a GM LS style or LLT (V-6, 5th Gen Camaro) power-plant. Dragsters, roadsters and altered style cars are prohibited. Vehicles are required to be stock appearing and stock bodied. **Rental cars are prohibited from competition.**

RACING FORMAT:

- Index format on .25 breaks from 11.00 – 15.00
- .500 Pro Tree
- All run field
- NHRA Sportsman ladder
- Handicap start
- Courtesy stage
- Rental cars prohibited

TIME TRIALS:

For LSX Rumble participants there will be 3 scheduled time trials that will run in conjunction with Heads up classes. During the 3rd time trial session you will be required to declare your index that you will run under during eliminations on Sunday. The competitor running closest to their declared index in the 3rd time trial, without going under, will be awarded the wait and see bye for 1st round of Eliminations.

If a Bye Run is not available in 1st round, it will not carry over to 2nd round and or additional rounds. Bye Runs are determined by the Generated ladder from 1st round winning Reaction times. Once a personal index is claimed it will not be allowed to change for the remainder of the event. LSX Rumble participants are allowed to participate with the Bracket and True Street time trial sessions as well. If you fail to declare your index you will automatically be placed in the "ZZ" index class.

QUALIFYING\ELIMINATIONS:

The class will be an all run class with vehicles randomly paired in the first round. In the second round vehicles will be qualified by positive reaction time (r/t) closest to ".000" based on a Pro

.500 Tree from first round. “.000” is considered perfect. Any negative r/t (-.001, -1.231, etc.) will be placed at the bottom of the qualifying ladder, the more negative the r/t is, the farther down the ladder the run will be placed. For cases in which identical reaction times are made, qualifying position will be based on a first-come first served: the first occurring r/t will be placed #1, the second occurrence of said r/t will be placed #2, and so on.

Class will be laddered according to qualifying positions following the first round, and then advance thru eliminations. Any negative reaction times will be placed at the bottom of the qualifying ladder, the more negative or faster the reaction time, the farther down the ladder the racer will be placed. For cases in which identical reaction times are made, qualifying position will be based on a first- come first served: the first occurring reaction time will be placed #1, the second occurrence of said reaction time packages will be placed #2, and so on. Class will be laddered according to qualifying positions following the first round, and then advance through elimination.
